Tracy:

Will be in DC after the fourth. If you will be in town, would you have time to meet on Thursday, July 6th?

There has been significant activity in Region 6 on the use of TDU's based on the new DSW and verified recycler exclusion. Would like to discuss where this is going and the Agency's take on such activities. We are getting to the point where there is a bit of over-lap on exclusions, and the regulatory incentives are beginning to push the management of secondary materials away from the point of generation to off-site options involving transport and associated liabilities.

Early afternoon on Thursday, July 6th, would work best for me. Thanks
